Annual Strategy Briefing (Executive)

===== The 2026 plan concentrates investment on three fronts: expanding the enterprise platform footprint, deepening managed-service Attach on the installed base, and entering two new regional markets. Operating margin target improves by 210 basis points on mix and delivery automation. Headcount growth is capped at the supportable run-rate while automation absorbs demand. Quarterly board reviews track the three fronts with leading indicators: qualified pipeline, attach rate and regional bookings.
